

Construction Project / Senior Site Manager

About Us

Rayner Rowen Construction Limited are a dynamic multi-disciplinary construction company dedicated to delivering innovative and sustainable solutions. Established in 2016, our business was founded by our Directors, a group of highly experienced construction professionals with extensive tier-one backgrounds.

Based in the North West of England, we hold vast experience in the delivery of new build, refurbishment, and development projects across a wide range of sectors, including industrial, residential, education, healthcare, commercial, and leisure.

Job Description

Rayner Rowen are currently recruiting an experienced Senior Site Manager / Project Manager to deliver a new build school in South Yorkshire with a value of £7.5m.

The project is currently in the pre-construction stage and will require the Senior Site Manager / Project Manager to finalise the logistics and early works on the project, including site set up, leading to the on-site delivery and management of a small assisting team.

The successful candidate will be required to complete our company DBS vetting process prior to appointment.

Key Responsibilities:

- Overall responsibility for the project including budget, quality, health and safety and the delivery of the project within the set time parameters
- Day to day running of the site including leading the site team, and the management and coordination of subcontractors, labour, materials and resources
- Managing the site induction process and ensuring all site works abide to the site rules and procedures
- Production of site logistics plans and health and safety documentation including implementing and updating the project Construction Phase Plan and reviewing and approving Method Statements and Risk Assessments
- Managing and maintaining the Site Environmental Plan and Construction Management Plan and ensuring all requirements are adhered to on site
- Short term planning and the associated reporting
- Engaging with the school, local community and project stakeholders including the client and design team
- Managing the project prelims within set budget
- Approving payments to trades and contractors where appropriate
- Undertake quality control procedures and inspections when required and rectifying any defects so as not to incur additional cost, delays, or reduction in the final quality
- Ensuring that the client KPI's, including social value requirements are successfully achieved
- Representing the company in a positive manner and demonstrating a good behavioural example in all aspects of health and safety, organisation, conduct, quality of work, and professionalism

Essential Skills/Qualifications:

- Experience in leading a project from initial set up to handover and completion
- Used to working in restrictive environments (e.g. schools, hospitals etc).

- Used to working within logistically tight site constraints
- Experiences in all aspects of construction, e.g. groundworks, envelope, internals etc
- Good technical knowledge in interpretation of drawings
- Commercially aware
- Strong problem solving skills
- Experience of working to an established build programme and managing priorities
- In depth knowledge of all aspects of construction and the relevant legislative requirements e.g. Health and Safety, NHBC requirements and Building Regulations.
- Strong attention to detail and organisation skills
- Excellent management and communication skills

Desirable Skills/Qualifications:

- Experience of working on school projects, particularly those for the Department for Education
- Member of CIOB / APM

Job Type: Full-time, Permanent

Salary: Competitive

Benefits: 24 days holidays plus bank holidays, employee pension scheme, healthcare package, car allowance, training, career development, car allowance and additional benefits
